Subject: proposal amendments

Hi ██████████

Thank you very much for your letter and for have taken my proposal to your committee. I am very excited about the warm reception of the idea.

To begin addressing the concerns brought to light by the committee, i have attached an amended proposal that addresses the issue of sharp edges, and of the serving of lemonade in the park area in the vicinity of the piece on the day of installation.

I very much appreciate your comments and your support, and i look forward to working with you and with Ms. LaBute to address all of the concerns for the safe installation and lifetime of this piece.

best,
erin

Hello Erin

My apologies for the delay in our response, to update you further. As you may be aware we recently had a Municipal election so some matters were delayed. We are currently in the process of establishing a Public Arts Advisory Group to assist us in the implementation of all monuments and sculpture requests. I expect that committee may be established in the New Year and will be in contact. Thanks again for your patience.

Subject: RE: ford city park sculpture proposal

Greeting to you,

Hope the winter was kind and gentle in Montreal, although having lived there I know that might not be true. Wanted to update you on what is current here in Windsor. Recently the City of Windsor undertook a review of all of the agencies, Boards and Committee of council, it was concluded that several committee could be merged for increased efficiency. As a result of the election last fall, the call for new committee members was required as well as due to the review suggestions. One of the new committees will be the Public Art Advisory Committee which is currently in the process of being developed. When that is complete I will forward you information along to them for perusal and of course advise you accordingly. In the meantime, rest assured I have your request on my desk and have not forgotten. We appreciate your patience.

m
