

artist Sane Jung

Born in Gunsan, South Korea, 1985

*Through my art, I can go fishing, I can eat burgers, I can play with balls,
I can go to the sea and go to mountain. I can meet people and talk to people, I can
see the sky and I can see the moon.*

How gorgeous it is and what a wonderful, exciting privilege I have. -my note vol.14

Creating is my big pleasure such as playing with toys and learning different languages. To me, art is about exploration and experimentation and transformation and discovery of my universe. I work in many mediums. I do not acknowledge barriers and breaking them brings joy to me. I like mixtures and challenges they present, and finding new solutions to old questions. My sources to make something new are mostly based on individual and quotidian experience, so I need to be observant and intimate with my surroundings. Now my daily scenes are captured in Germany and Leipzig.

W.-Seyfferth-Str., Leipzig, Feb 28, 2011
