

# garden REtreat

project proposal by kitty gordon, 2010

## What is Garden REtreat?

Garden REtreat answers the question: What does an overlooked and ignored urban lot, after years of abandonment and neglect, become when the space itself uses the resources found within to create restoration and renewal?

## What is its purpose?

- Temporarily transform a highly visible vacant lot into a vibrant urban garden
- Showcase the potential for recycling and reuse
- Bring interactive and accessible art to a community

## What will it look like?

Imagine visiting a garden filled with organic forms made from man-made materials

## What next?
