

The structure of the "throne" in the landscape reliefs.

Exterior view of the central building (building No. 1).

The arrangement of the slanted "cylinders" and an interior of building No. 1.

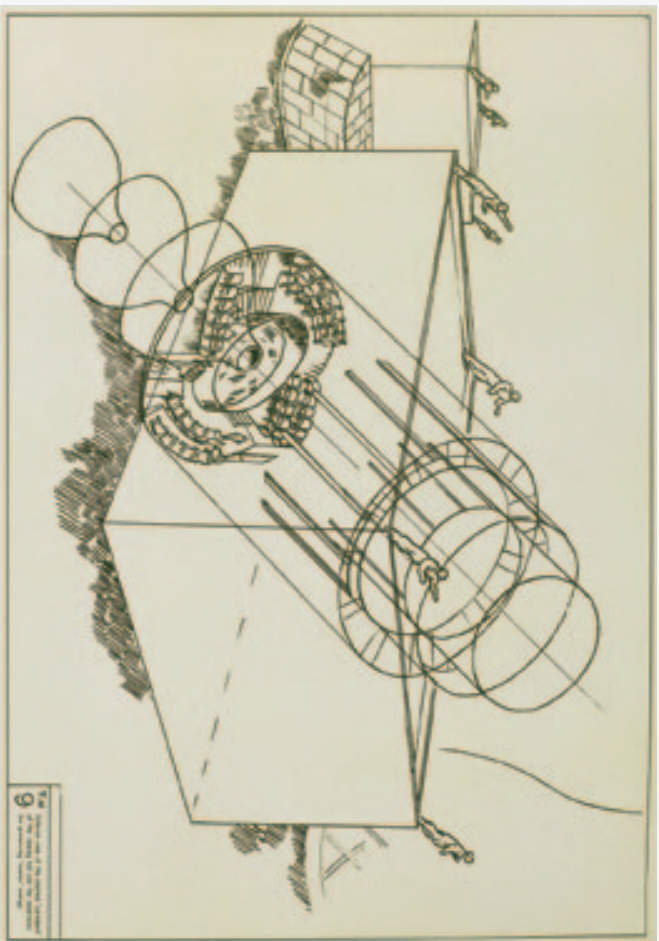

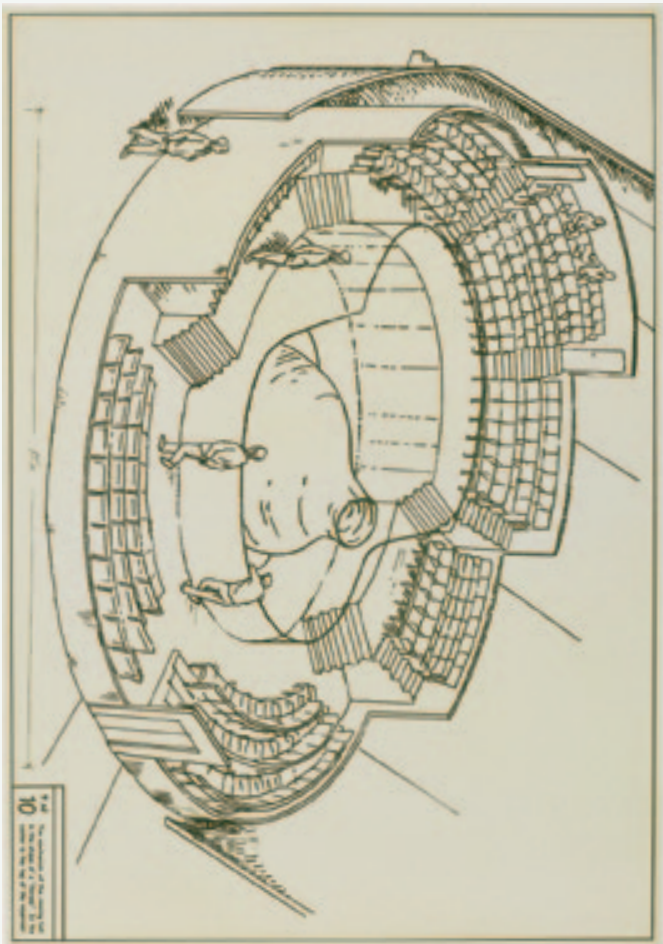

Fig. 9
A perspective view of the slanted "cylinders" of the viewing hall and the reservoirs for preserving "cylinders" energy.

Interior view of the slanted "cylinders" of the viewing hall and the reservoirs for preserving "cylinders" energy.

The structure of the viewing hall in the shape of a “throne”. In the center is the top of the reservoir.

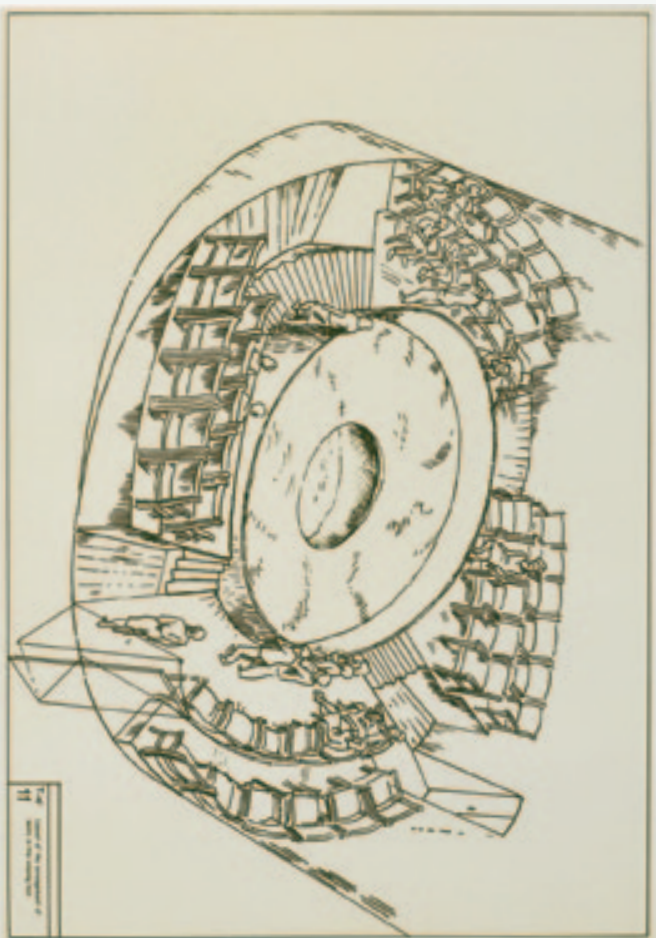

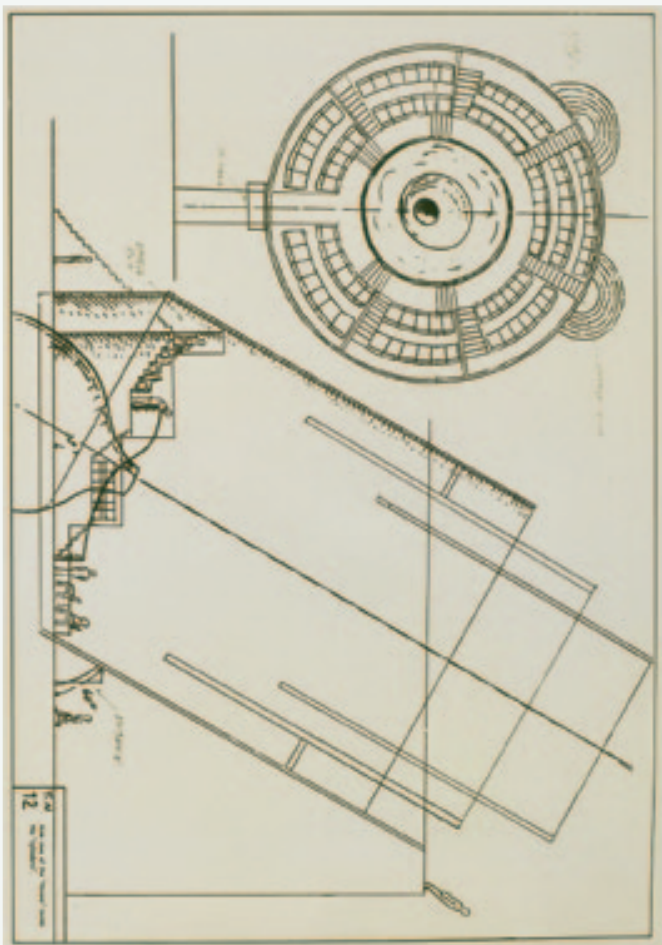

Fig. 11
Theatrum Romanum
et Amphitheatrum

Layout of the arrangement of seat in the viewing hall.

Side view of the "throne" inside the "cylinders".

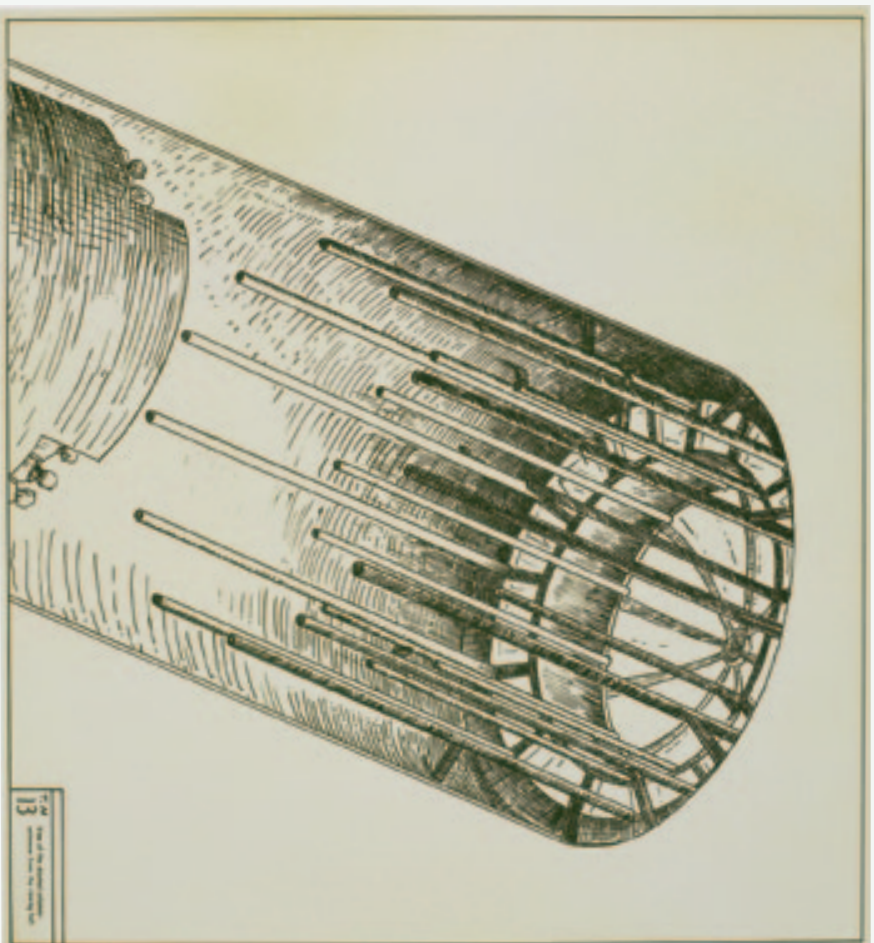

Fig. 13
View of the slanted columns-
antennae from the viewing hall.

View of the slanted columns-antennae from the viewing hall.

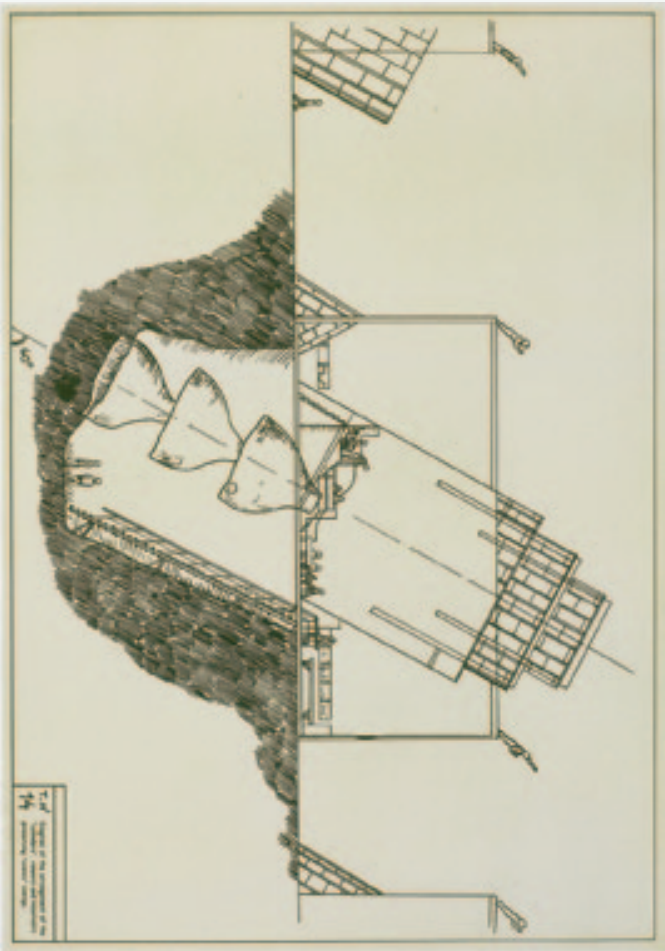

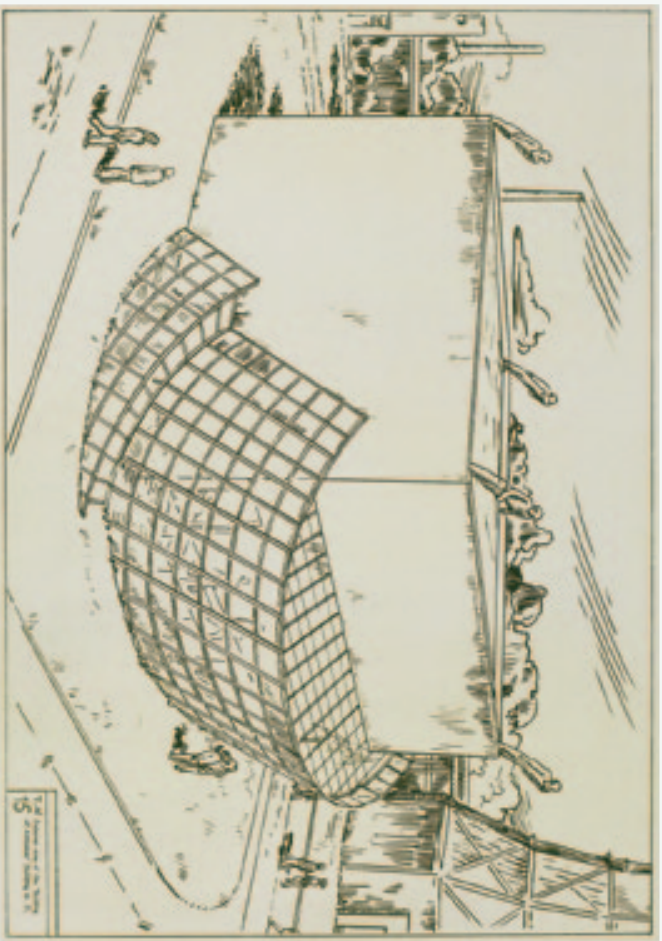

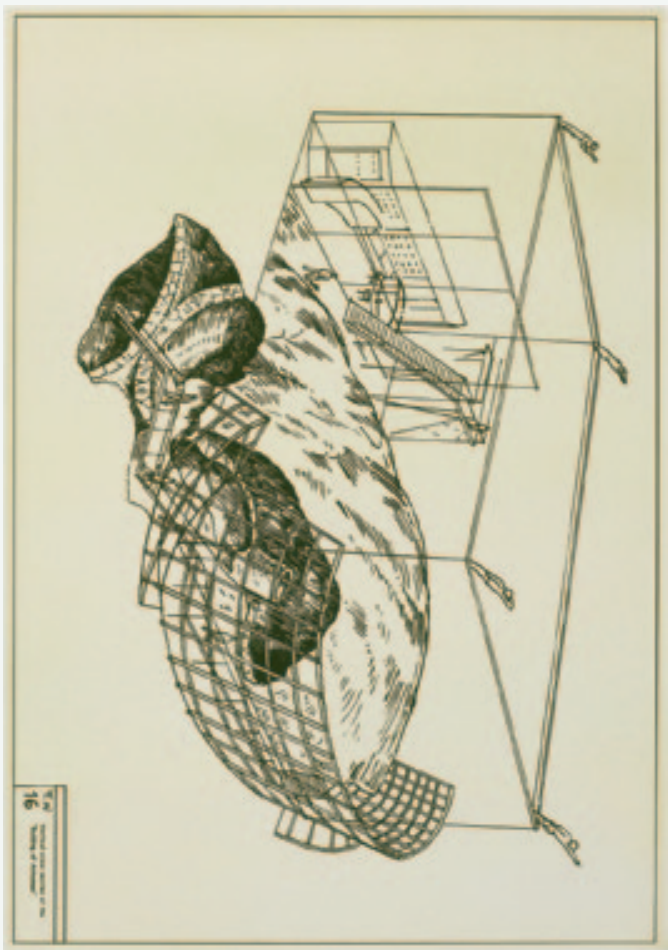

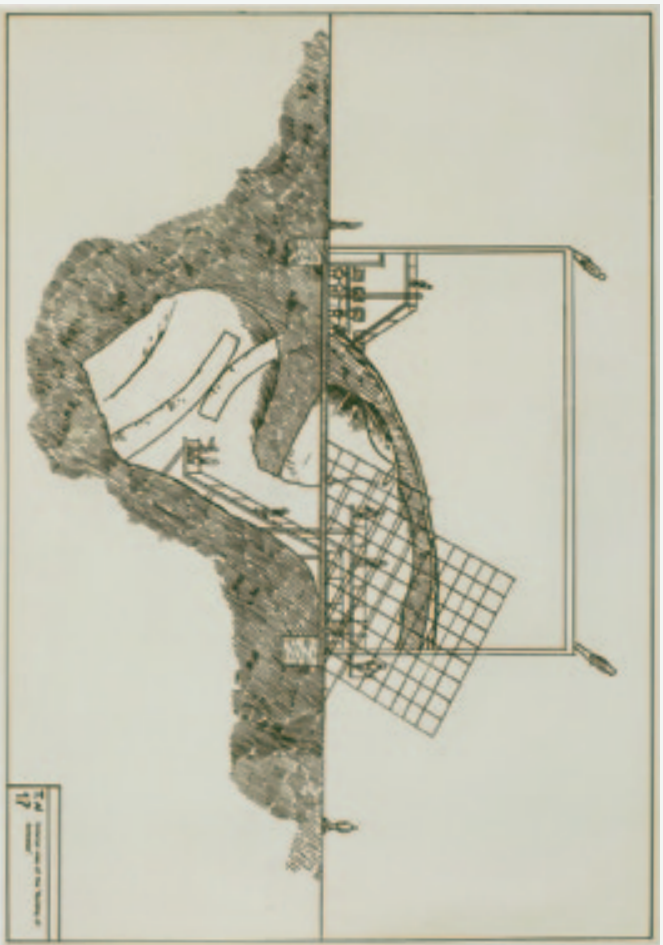

Diagram of the arrangement of the "cylinders", viewers and reservoirs for preserving "cosmic" energy.

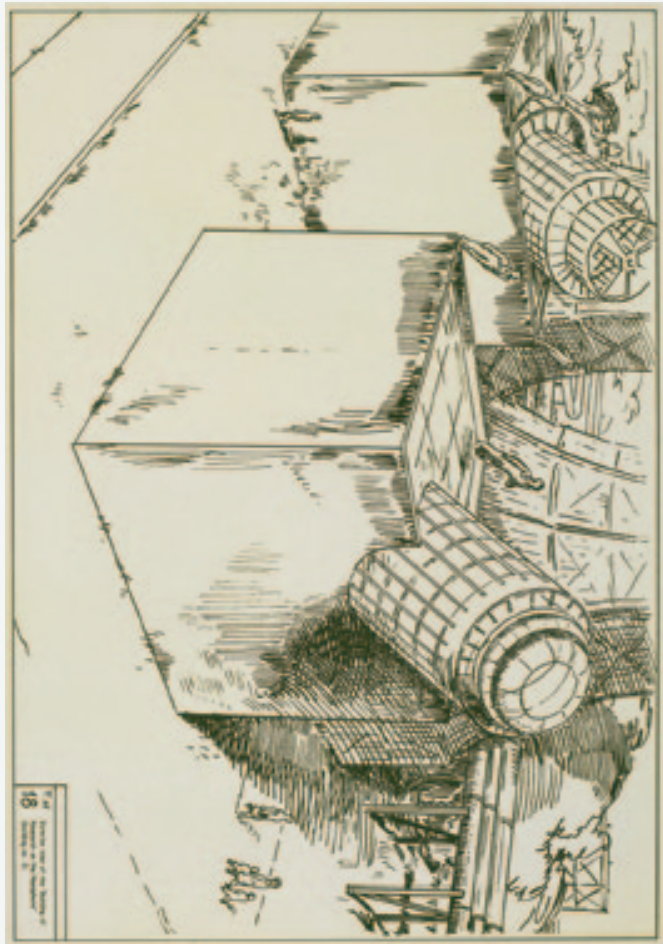

Exterior view of the „Building of Antennae“ (building no. 2).

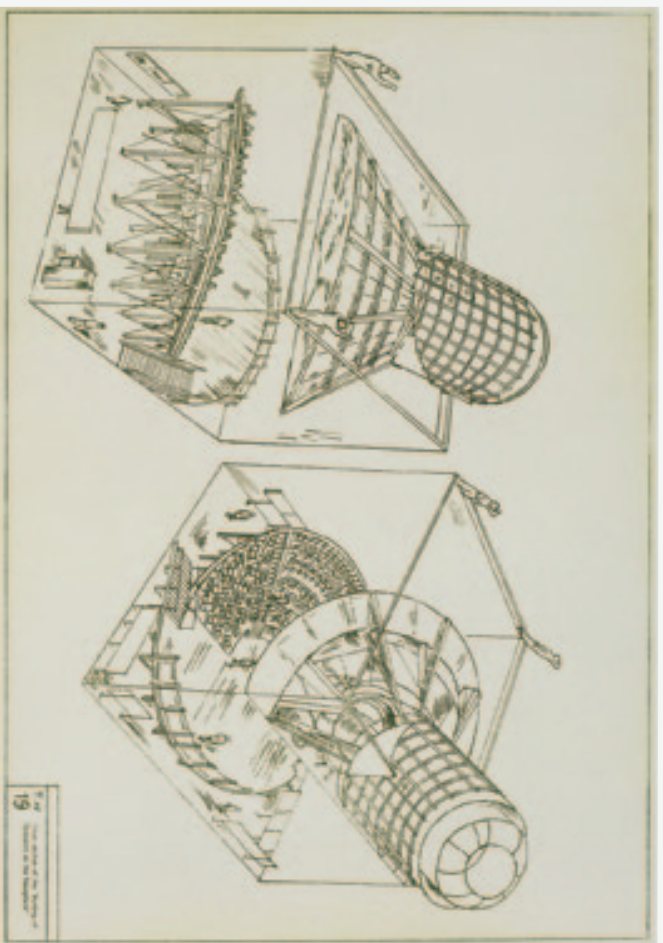

Vertical cross-section of the „Building of Antennae“.

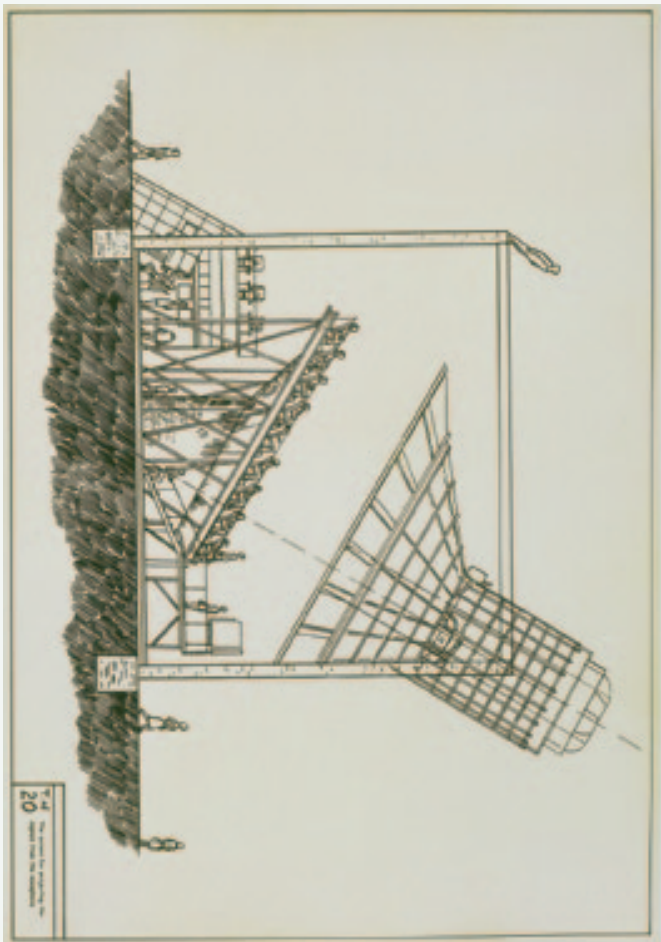

Interior view of the „Building of Antennae“.

Exterior view of the „Building of Research of the Noosphere“ (building no.3).

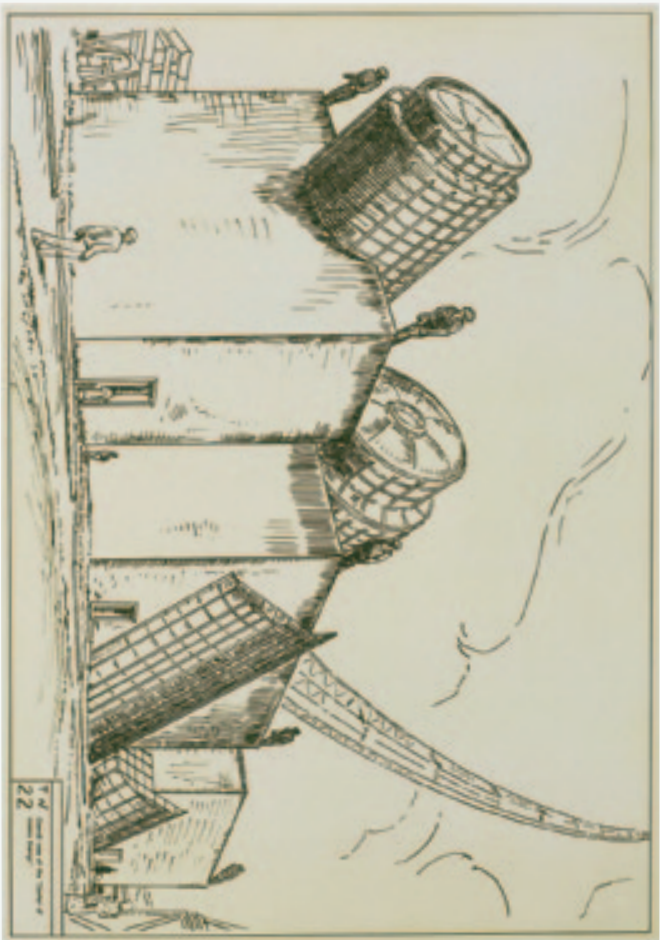

Cross-section of the "Building of Research of the Noosphere".

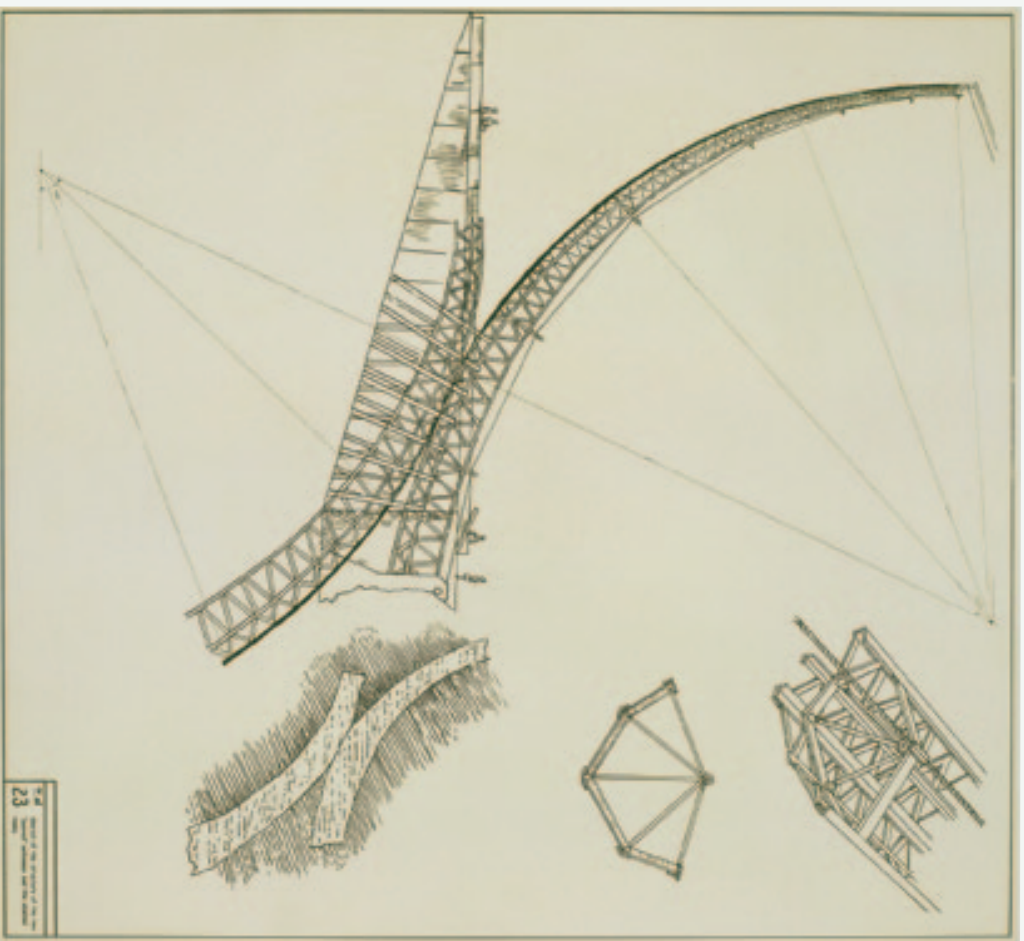

The screen for projecting the signals from the Noosphere.

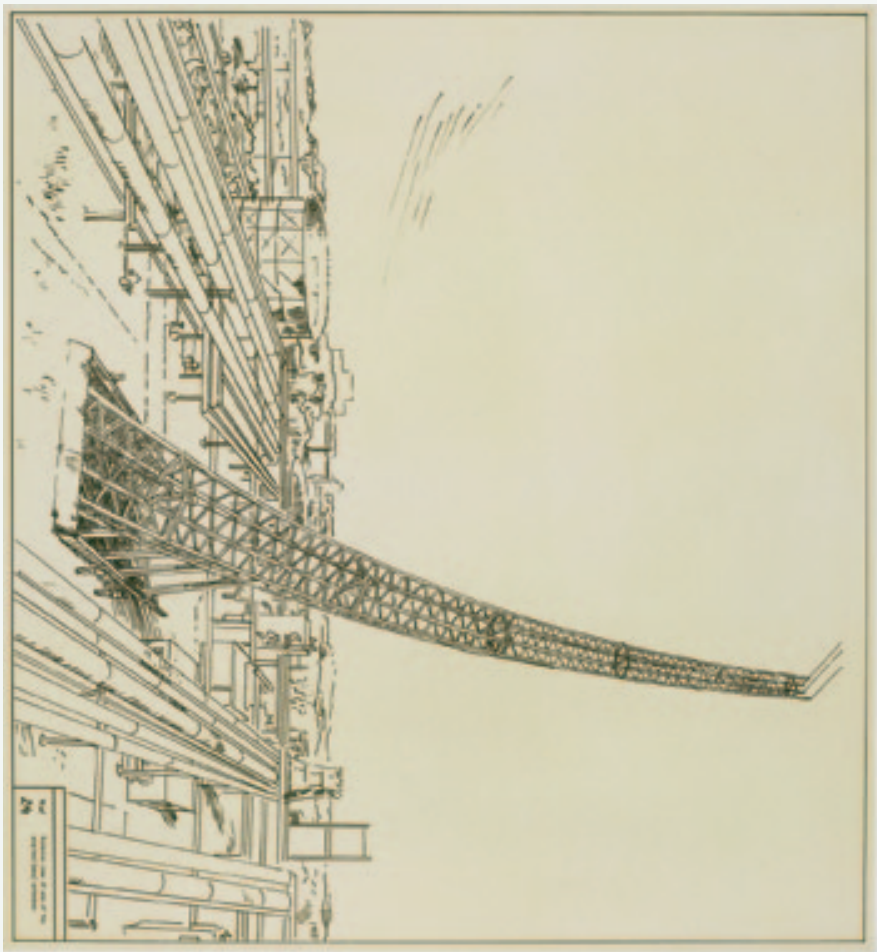

Diagram of the arrangement of the antennae in the "Center of Cosmic Energy".

Overall view of the "Center of Cosmic Energy".

Sketch of the structure of the two "paired" antennae and the slanted ramp.

Exterior view of one of the erected (new) antennae.

Overall view of the "Center of Cosmic Energy". Handcoloured.
